## WHOM IT MAY CONCERN

Collegno, March 25, 2020

### COVID-19 Force Majeure Notification

Dear Valued Supplier,

As you are well aware, the COVID-19 outbreak, recently declared as a pandemic by the World Health Organization, has continued to spread and intensify in Europe and other countries with highly significant impact on health, supply chain, production capacities, and travel.

On Saturday, March 21, Italian prime minister Giuseppe Conte announced that Italy will close its factories and all production that is not essential. TE Connectivity has confirmed that **our operations in Collegno and San Salvo do not qualify under this exception, so we will be ceasing operations until, at least, April 3, 2020.**

TE Connectivity ("TE") does not see any other option than **to declare Force Majeure** under the applicable agreements with your company and its affiliates.

Due to this Force Majeure event, we are currently unable to receive goods at our facilities in Italy. Therefore, we ask that you cease shipments until our operations reopen.

Please be assured that TE is paying close attention to the events transpiring around the world. Our teams are working hard to mitigate the impact to TE customers and suppliers. We understand your needs and concerns and commit to keeping you updated during this rapidly evolving situation. Should you have any further questions regarding this notice, please contact your planning contact at San Salvo or Collegno or your Automotive or Appliances EMEA procurement representative.

Sincerely,

---

Fulvio Calvone  
Managing Director  
TE Connectivity Italia S.r.l.
