### WHAT SETS DEUTSCH PRODUCTS APART

The DEUTSCH series by the premium manufacturer, **TE Connectivity**, stand out for their robust construction and have been successfully used for the past 70 years in extremely demanding environments. DEUTSCH products are available with a different number of poles depending on the series. Plus they have great temperature resistance: from  $-55^{\circ}\text{C}$  to  $+150^{\circ}\text{C}$ , also depending on the series.

DEUTSCH products withstand extreme conditions such as vibrations, heat and cold, chemicals as well as fluids. The DEUTSCH series also include accessories and related products such as plug connectors, cables, contacts, accessories and tools.

### ADVANTAGES OF THE SERIES AT A GLANCE

- Suitable for demanding environments and extreme conditions
- Robust quality
- Resistance to vibrations, extreme temperature conditions, chemicals and fluids
- For applications in business and industrial transport (ICT)
- Proven reliability for more than 70 years

## Franchised distribution of DEUTSCH products.

**Great connections under extreme conditions.**

The electronic distributor Börsig, in Neckarsulm, holds the franchised distribution rights for the DEUTSCH series by the manufacturer TE Connectivity. Börsig stocks an extensive amount of DEUTSCH products as well as other TE Connectivity articles. As a result, **a large number of articles are already in stock**, guaranteeing great availability as well as short delivery times. Products **outside the packaged unit quantities** can also be ordered from Börsig and there is **no small quantity fee**.

As an additional service, you can find more information on the DEUTSCH plug connectors on our website at [www.boersig.com/en/deutsch-produkte](http://www.boersig.com/en/deutsch-produkte)

Our specialised TE Connectivity sales team is always at your disposal for any application-specific needs and challenges. **We are happy to answer your questions.**
